

Monday

Measurement Homework

Cut the ruler out at the bottom of this page to help with your homework.

1. Find 3 objects around your house that you could measure in inches. Estimate the length of each object and record in the chart. Then use the ruler to measure each object and record its length.

Object	Estimate (in inches)	Actual (in inches)

2. How did you estimate each object? What strategies did you use to make your estimates?

3. Draw each quadrilateral below with the correct perimeter.

A square with a
perimeter of 8 inches

parallelogram with a
perimeter of 10 inches

rectangle with a
perimeter of 6 inches

Tuesday

The graph below represents how many points each player scored during 1 game on the Tiger's basketball team. Use the data in the graph to create a line plot.

Baskets Scored During Basketball Game

Jaiden	5
Cameron	3
Jayson	8
Nataniel	6
Elijah	10
Warren	7
Daniel	4
Sergio	6
Ernesto	10
James	3
Alex	6
Doug	3

Amount of players that scored this many baskets

- 1. If you combine all the baskets scored, how many baskets were scored?**
- 2. How many players scored more than 6 baskets?**
- 3. How many players scored less than 5 baskets?**
- 4. How many players scored exactly 10 baskets?**
